- Shutter cavity : Ø26mm, 10mm deep, 4mm from edge.

Specifications

Code Nos.	Model	'A' mm	Finish
HM1	Full Overlay	37.0	NP
HM2	Half Overlay	37.0	
HM3	Inset	37+S	

S=Thickness of shutter

Fitting Instructions

1. Drill out the cavity in the shutter as per the dimensions in Fig. 1.
2. Fit the cap into the shutter cavity and screw on the hinge at right angle to the edge of the shutter.
3. Mark hole in the cabinet for mounting plate as per Fig. 2 and screw on the mounting plate.
4. Now, align the shutter with the cabinet and slip-on and screw the hinge on to the mounting plate. Any play or gap in cabinet can be adjusted in the bracket.
5. By loosening the bracket screws, the shutter can slide horizontally and also be pivoted for varying pressure.
